## 6GK1901-1BB10-2AB0

product type designation product description

RJ45 data connector Industrial Ethernet FastConnect RJ45 plug 180 2x 2, RJ45 plug-in connector (10/100 Mbit/s) with rugged metal enclosure and FC connection system, for IE FC TP cable 2x 2; 180° cable outlet 1 pack = 10 units.

suitability for use

For connection to IE FC TP cables 2x2, suitable for fast assembly with the FastConnect system

transfer rate	
transfer rate / for Industrial Ethernet	10 Mbit/s, 100 Mbit/s
interfaces	
number of electrical connections	
<ul> <li>for Industrial Ethernet FC TP cables</li> </ul>	4
<ul> <li>for network components or terminal equipment</li> </ul>	1
type of electrical connection	
<ul> <li>for Industrial Ethernet FC TP cables</li> </ul>	integrated cut-and-clamp contacts for 4-wire TP FC installation cable AWG22
<ul> <li>for network components or terminal equipment</li> </ul>	RJ45 connector
type of electrical connection / FastConnect	Yes
mechanical data	
material / of the enclosure	metal
number of reuses	10
locking mechanism design	other
design, dimensions and weights	
type of cable outlet	180° cable outlet
width	13.7 mm
height	16 mm
depth	55 mm
net weight	35 g
connectable cable cross-section	6.5 6.5 mm
connectable conductor cross-section	0.33 mm <sup>2</sup>
ambient conditions	
ambient temperature	
during operation	-40 +85 °C
during storage	-40 +85 °C
during transport	-40 +85 °C
relative humidity	
<ul> <li>at 25 °C / without condensation / during operation / maximum</li> </ul>	95 %
protection class IP	IP20
product features, product functions, product components / gene	oral
product feature	
<ul> <li>PoE capability</li> </ul>	Yes
PoE+capability	Yes
silicon-free	Yes

security information						
Approvals / Certificates General Product Approva	1		that support the secure operation of plants, systems, machines and networks. In order to protect plants, systems, machines and networks against cyber threats, it is necessary to implement – and continuously maintain – a holistic, state-of-the-art industrial cybersecurity concept. Siemens' products and solutions constitute one element of such a concept. Customers are responsible for preventing unauthorized access to their plants, systems, machines and networks. Such systems, machines and components should only be connected to an enterprise network or the internet if and to the extent such a connection is necessary and only when appropriate security measures (e.g. firewalls and/or network segmentation) are in place. For additional information on industrial cybersecurity measures that may be implemented, please visit www.siemens.com/cybersecurity-industry. Siemens' products and solutions undergo continuous development to make them more secure. Siemens strongly recommends that product updates are applied as soon as they are available and that the latest product versions are used. Use of product versions that are no longer supported, and failure to apply the latest updates may increase customer's exposure to cyber threats. To stay informed about product updates, subscribe to the Siemens Industrial Cybersecurity RSS Feed under https://www.siemens.com/cert. (V4.7) Test Certificates Marine / Shipping
